Forecast For East Midlands
Issued by Met Office Exeter
at 0400 on Wednesday 21 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Sunny after any early cloud clears, scattered thundery showers developing.

Today:
Any early low cloud or mist patches soon clearing to leave another sunny day. However, scattered thundery showers are likely to develop in the afternoon. Very warm locally hot inland, but cooler towards the Lincolnshire coast. Maximum temperature 30 deg C (86 deg F).

Tonight:
Any thundery showers dying out in the evening to leave a dry but humid night across the region. However, some patchy low cloud and mist is possible by morning. Minimum temperature 15 deg C (59 deg F).

Thursday:
Any patchy low cloud and mist quickly clearing, with long sunny spells and perhaps the odd thundery shower in the west later. Very warm or hot away from the coast. Maximum temperature 30 deg C (86 deg F).

Outlook for Friday to Sunday:
Friday a little cooler, with sunny spells developing away from the coast. Saturday cooler and cloudier with thundery rain spreading north, then sunny intervals and some heavy showers on Sunday.
